AIRFRAME

Factory New 2017 M350

All new aircraft receive Skytech's award winning maintenance support, which includes transportation assistance to/from facilities in company aircraft.

The Piper M350 is the only current production, pressurized, piston-engine aircraft available today. It leads the pack with the ability to fly up to 25,000 feet in pressurized cabin-class comfort on piston-engine economy. Safety features abound with the Garmin Enhanced Autopilot Flight Control System (AFCS) with Level Technology and Underspeed Protection maintaining positive control, a Hypoxia Recognition System with Automatic Descent Mode ensuring safety at high altitudes, on-board weather RADAR to positively navigate around convective weather and more.
